Services & Solutions

01 ERP Solutions

CRM, HRMS, Accounting, Project Management, Inventory & Manufacturing

02 Custom AI & Automations

LLM apps, chatbots, computer vision and workflow automation

03 Data-Driven Solutions

Pipelines, dashboards and analytics for real-time decisions

04 MVP Development

From idea to a launch-ready product for startups — fast

05 Web Applications

Scalable, secure web platforms and SaaS products

06 Mobile Apps

Native-quality iOS & Android experiences

INDUSTRY SOLUTIONS

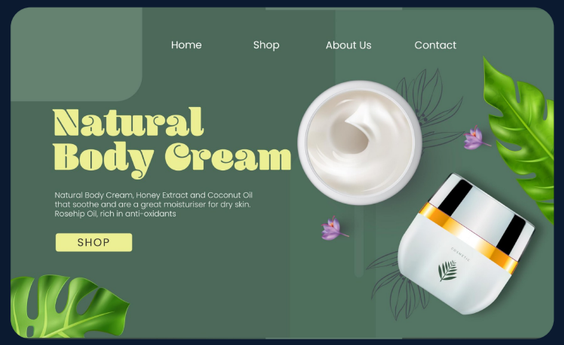

Ready-to-adapt platforms

- Manufacturing Platforms
- Insurance Systems
- Digital HMIS — Hospital Management
- Freight Management
- Multilingual AI Chatbot for Agriculture
- AI Crop Classifier

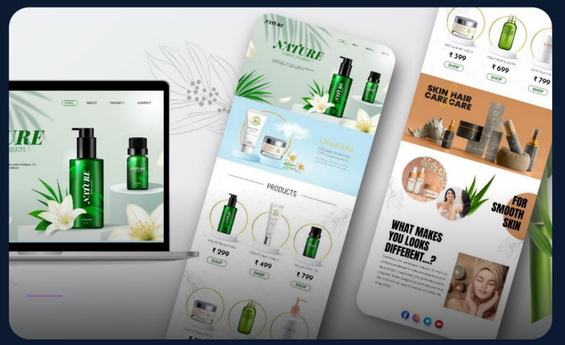

01

Website Projects

Brand-led, conversion-focused websites and e-commerce experiences for retail, F&B;,
real estate and lifestyle brands.

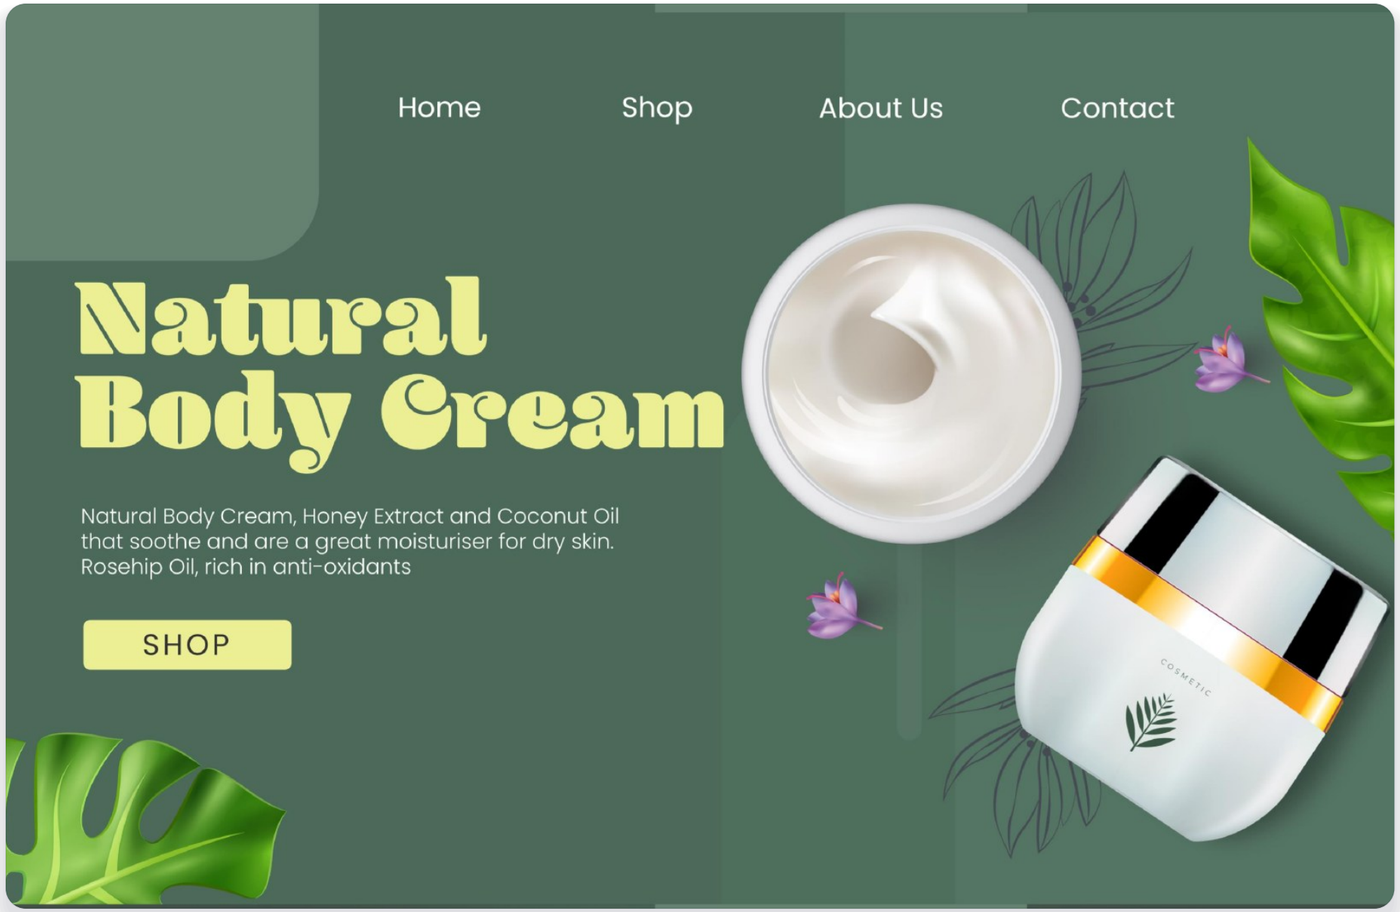

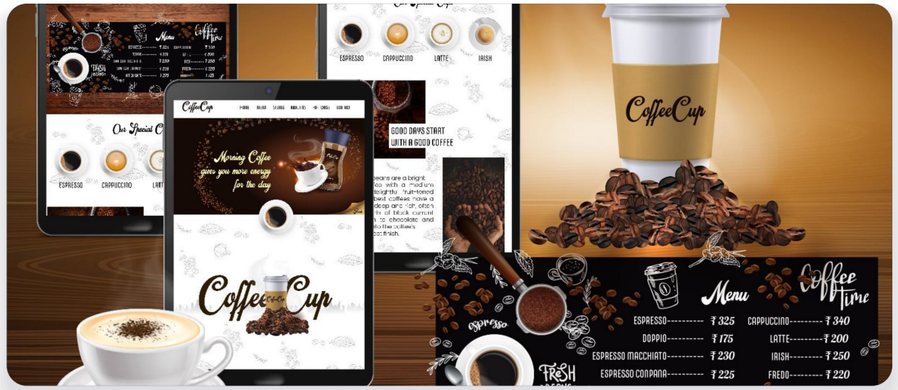

WEBSITE PROJECTS

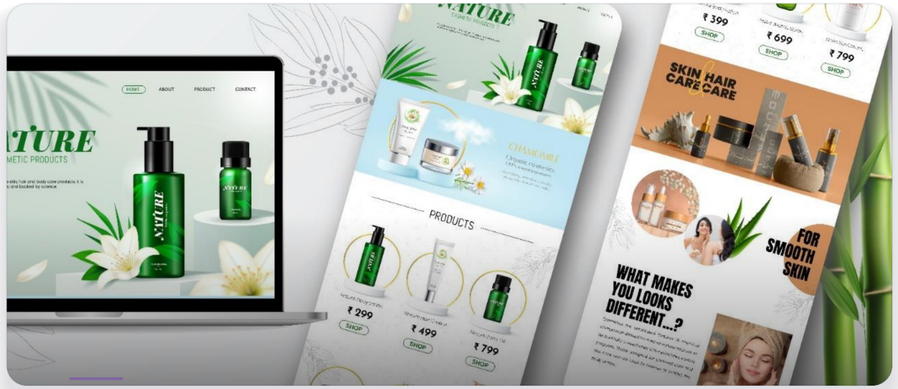

Crafted for brands that want to stand out

Natural Body Cream Skincare e-commerce landing page

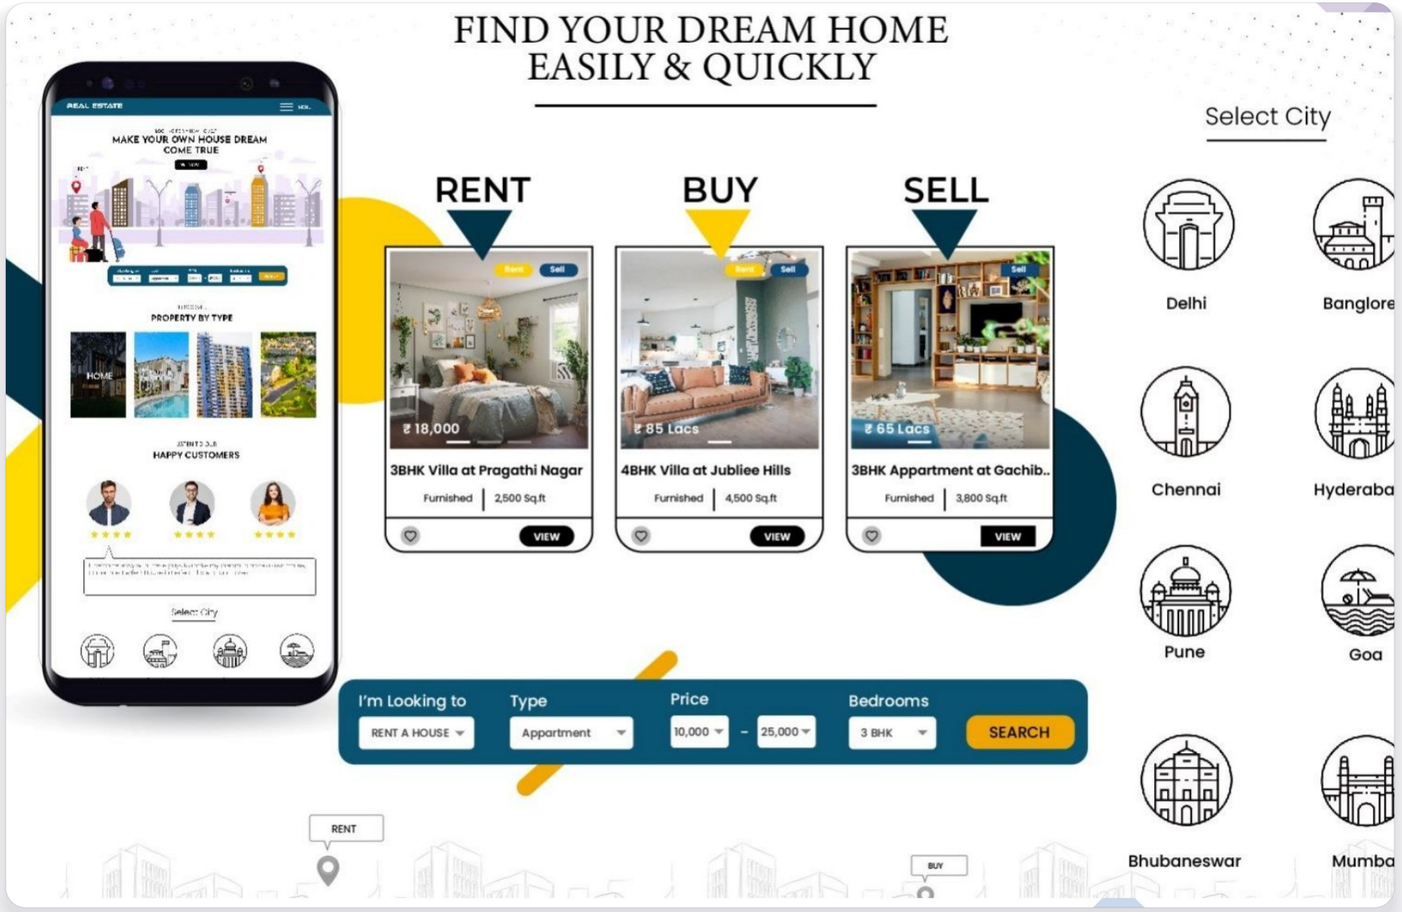

CoffeeCup Café website & digital menu

Nature Cosmetics online store

WEBSITE PROJECTS

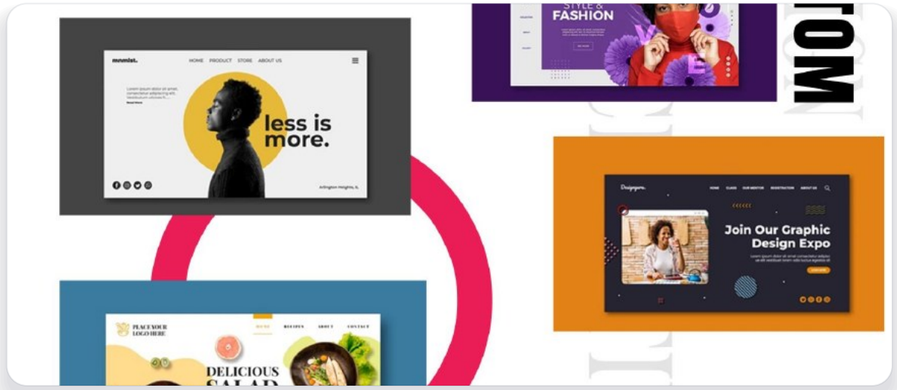

Responsive by design, built to sell

Real Estate Portal Rent · Buy · Sell across 8 cities

Organic Grocery Farm-fresh e-commerce

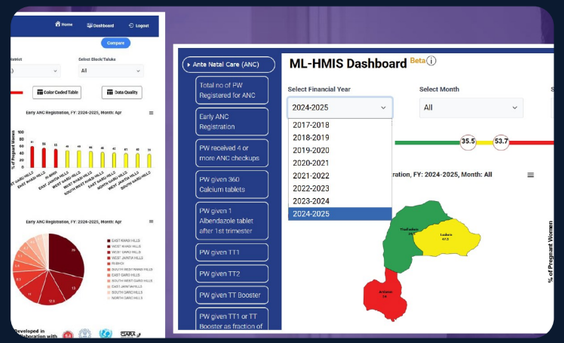

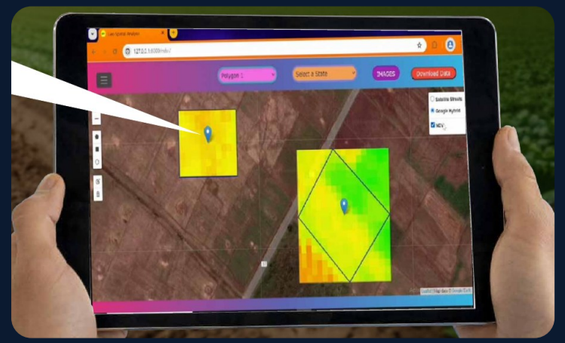

Custom Web Design Creative landing pages

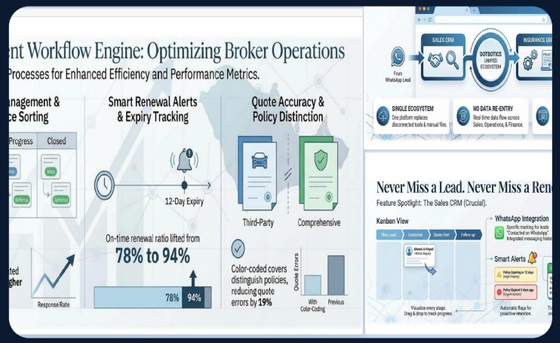

02

Enterprise Applications

AI, analytics and workflow platforms for government, public health, agriculture, insurance, automotive and more.

AI · AGRITECH

AGRICULTURE AI CHATBOT

Khet AI

Multilingual AI assistant for farmers

A conversational AI that lets farmers ask farming questions in their own language and get instant, practical guidance — right from their phone.

- Choose from Hindi and many other Indian languages
- Guided example questions by topic to get started quickly
- Mobile-first chat interface designed for the field

www.khet.ai

Generative AI | Multilingual NLP | Web App

GOVERNMENT PROJECT

DEPARTMENT OF AGRICULTURE

Krishi Katha

Farmer success stories platform

A government portal that showcases inspiring stories of Indian farmers — through reels, articles and crop-wise content — to spread proven practices across the country.

- Trending video reels featuring farmers
- Hindi-language stories organised by crop category
- Search, archives, tags and newsletter sign-up

krishikatha.da.gov.in

Content Platform | Hindi / Multilingual | Responsive Web

GOVERNMENT PROJECT

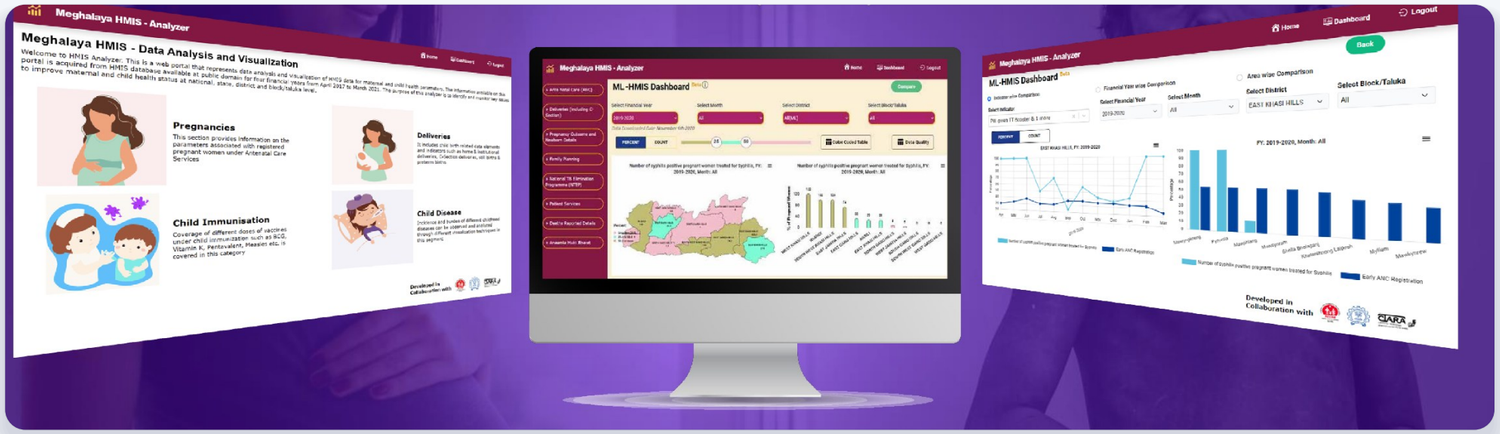

PUBLIC HEALTH ANALYTICS

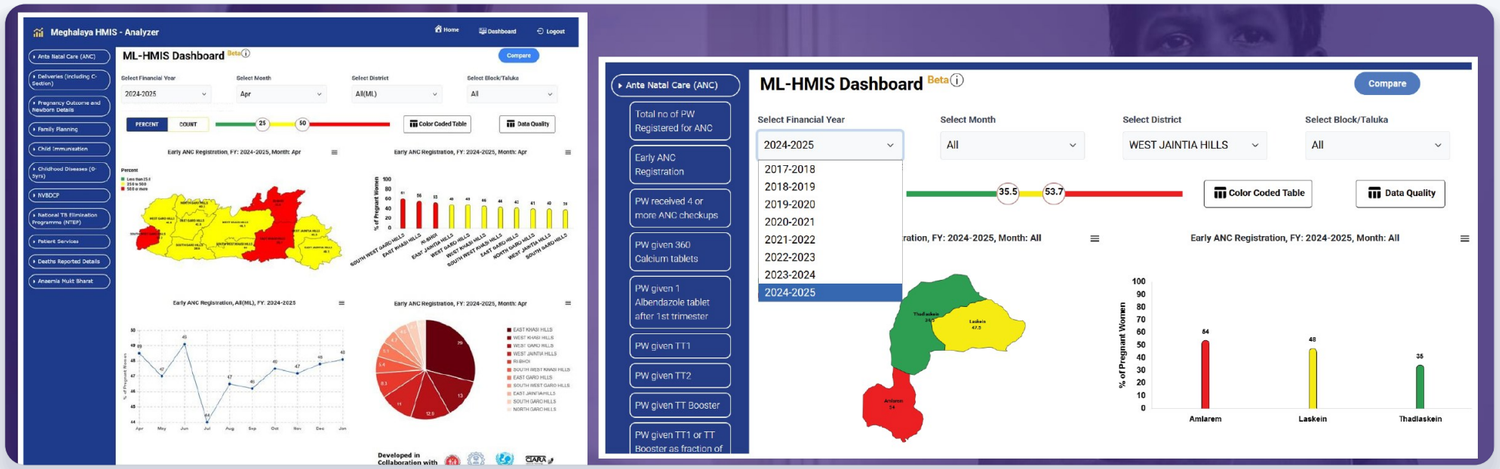

Health Management Information System (HMIS)

Maternal & child health analyser — Meghalaya

Analyses and visualises maternal and child health parameters to identify and monitor key issues at State, District and Block level.

- Drill-down maps & charts: state district block
- Colour-coded thresholds and data-quality checks
- Year-on-year comparison from 2017-18 to 2024-25
- ANC, deliveries, immunisation, family planning, TB & more

Govt. of Meghalaya | UNICEF | Data Visualisation

GOVERNMENT PROJECT

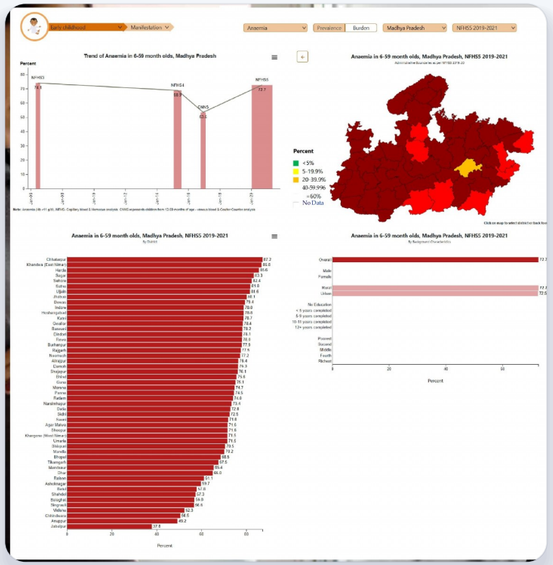

PUBLIC HEALTH ANALYTICS

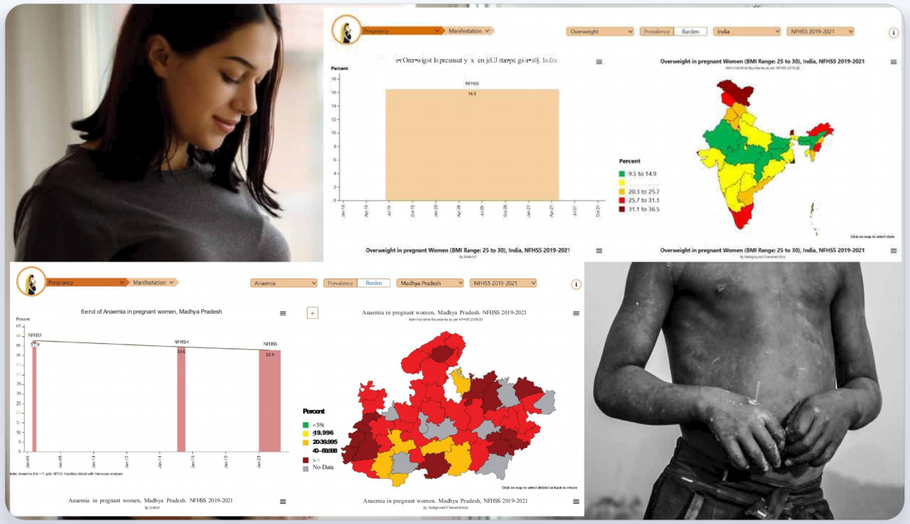

Nutrition & Health Indicator Dashboards

NFHS insights for mothers and children

Interactive dashboards tracking indicators such as anaemia and overweight across pregnancy and early childhood, using NFHS survey rounds.

- Trends across NFHS-3, NFHS-4 and NFHS-5
- India, state and district-level choropleth maps
- Prevalence vs. burden views
- Breakdowns by background characteristics

Survey Analytics | GIS Maps | Dashboards

GOVERNMENT PROJECT

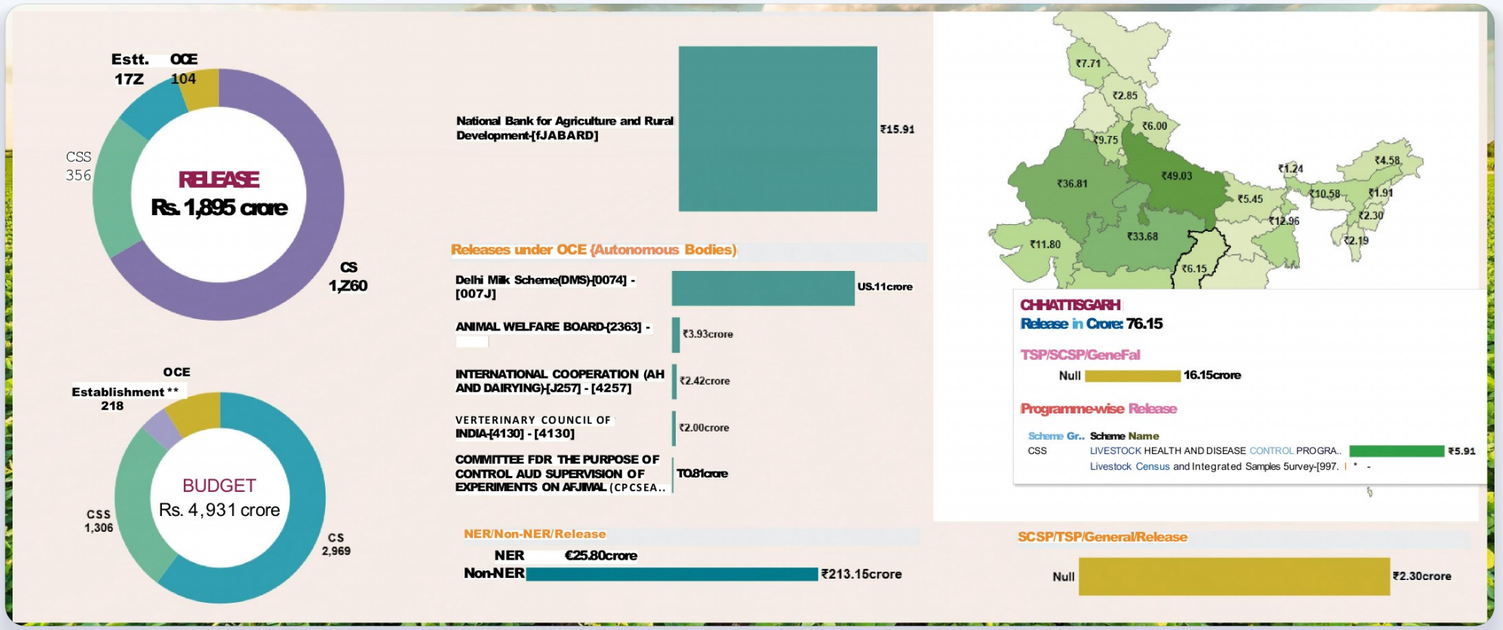

PUBLIC FINANCE ANALYTICS

Budget & Release Monitoring Dashboard

Scheme-wise financial tracking at a glance

A financial intelligence dashboard showing budget allocations and fund releases across schemes, states and autonomous bodies.

- Budget vs. release split by CS, CSS, OCE and Establishment
- State-wise release map with programme-level detail
- NER / Non-NER and SCSP / TSP / General views

BI Dashboard Geo Visualisation

GEOSPATIAL · AGRITECH

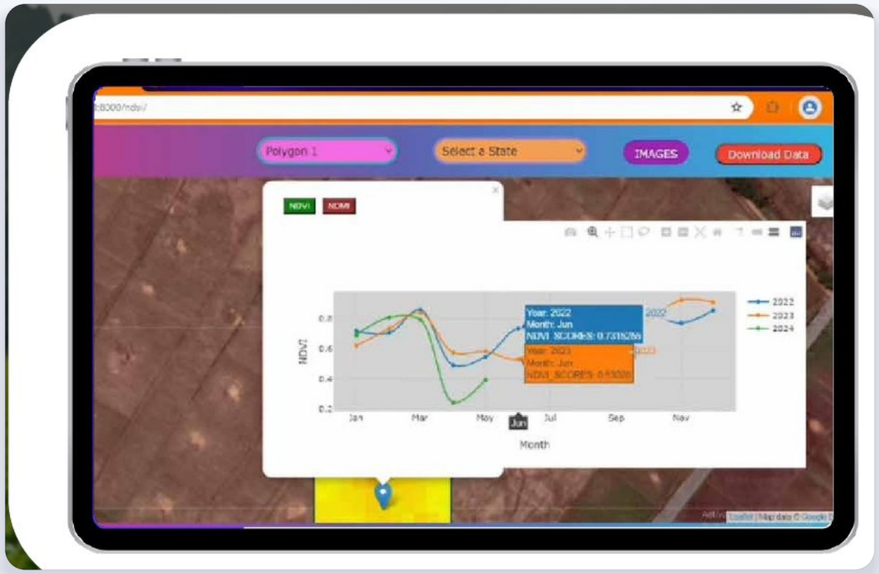

SATELLITE ANALYTICS

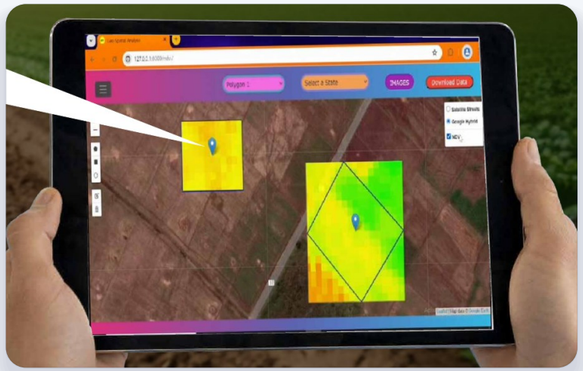

Agriculture Remote Sensing System

Field intelligence from satellite imagery

Manages, analyses and visualises geospatial data from satellite imagery and meteorological sources. Select any polygon on the map to instantly see data for that area.

- NDVI, NDWI, EVI and NDMI heatmaps
- Landsat and Sentinel imagery
- Multi-year trend graphs and downloadable tables

Remote Sensing | GIS | APIs

GOVERNMENT PROJECT

AGRICULTURE & FARMERS WELFARE

AI Crop Classification

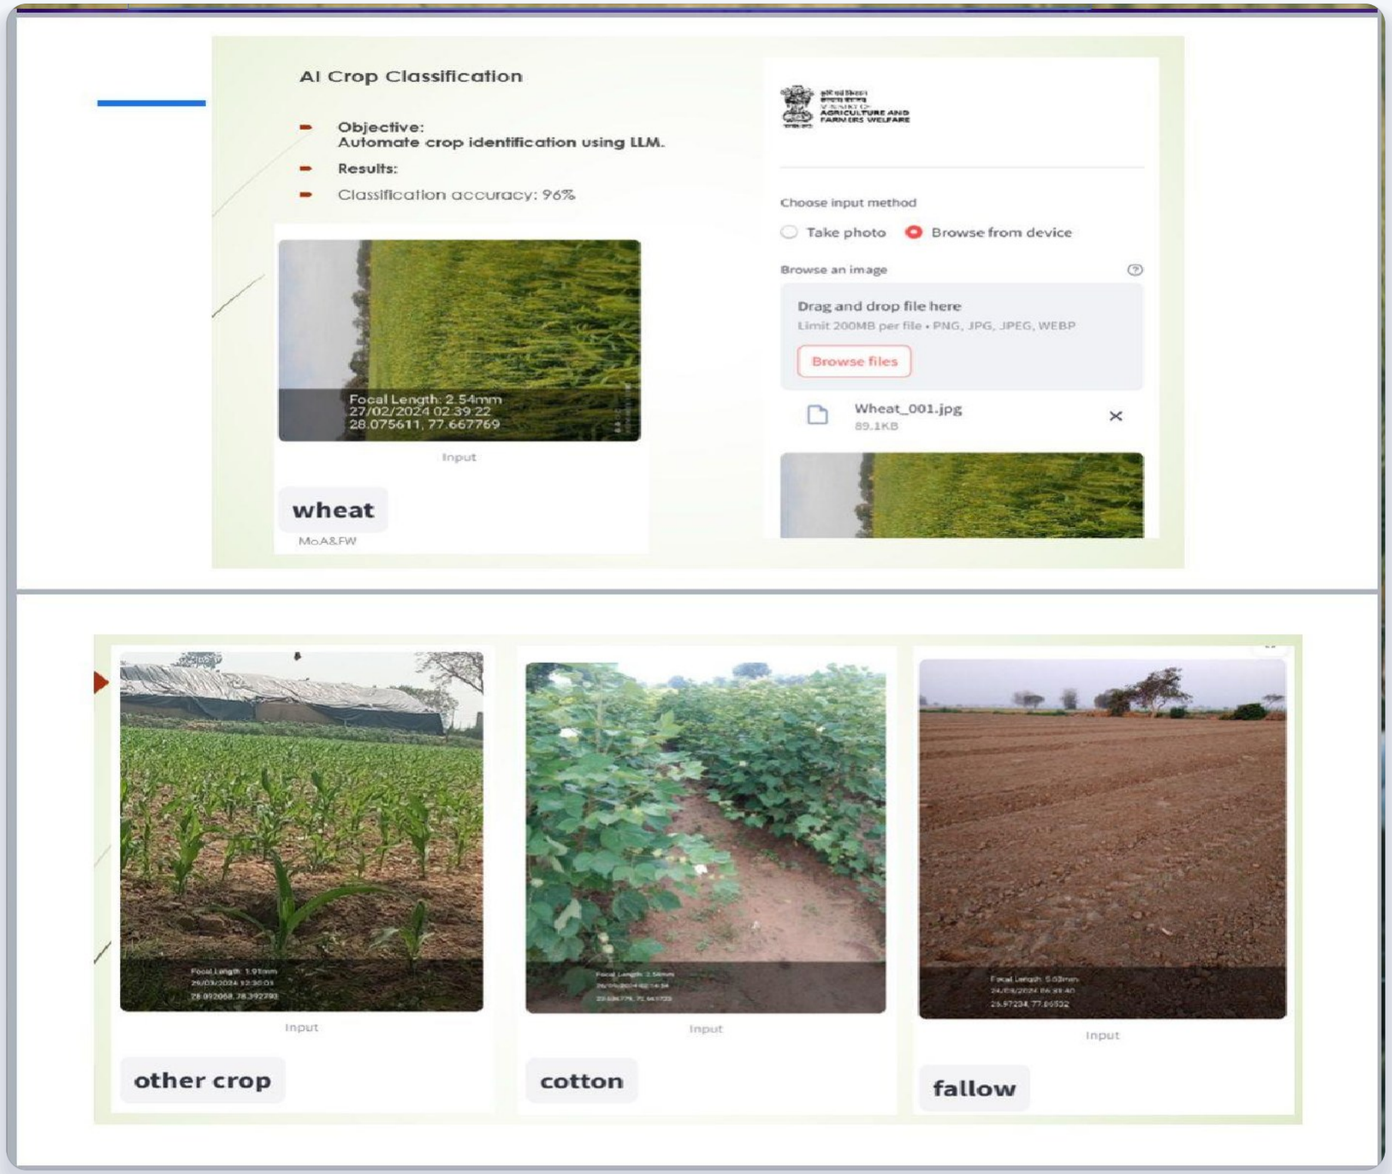

Automated crop identification using AI

Identifies the crop in a field photo automatically — helping officials verify crops at scale without manual inspection.

- 96% classification accuracy
- Detects wheat, cotton, other crops and fallow land
- Take a photo or upload from device

LLM / Vision AI

Computer Vision

ERP · INSURANCE

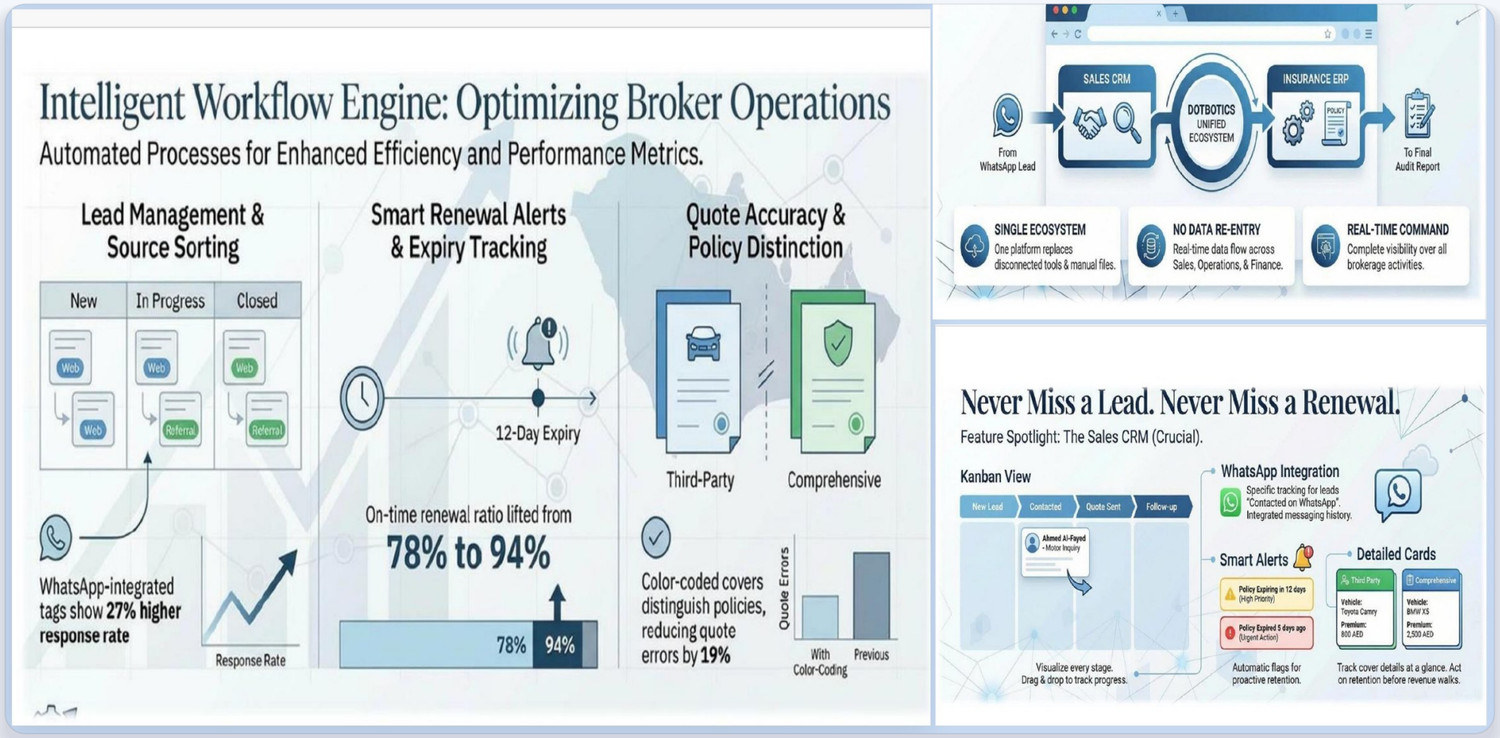

INSURANCE BROKERAGE

Insurance ERP

Never miss a lead. Never miss a renewal.

One unified ecosystem connecting Sales CRM and Insurance ERP — from a WhatsApp lead to the final audit report, with no data re-entry.

- On-time renewal ratio lifted from 78% to 94%
- 27% higher response rate with WhatsApp-integrated tags
- 19% fewer quote errors with colour-coded policies
- Kanban pipeline with smart expiry alerts

CRM | WhatsApp Integration | Workflow Automation

DATA ENGINEERING · USA

AUTOMOTIVE

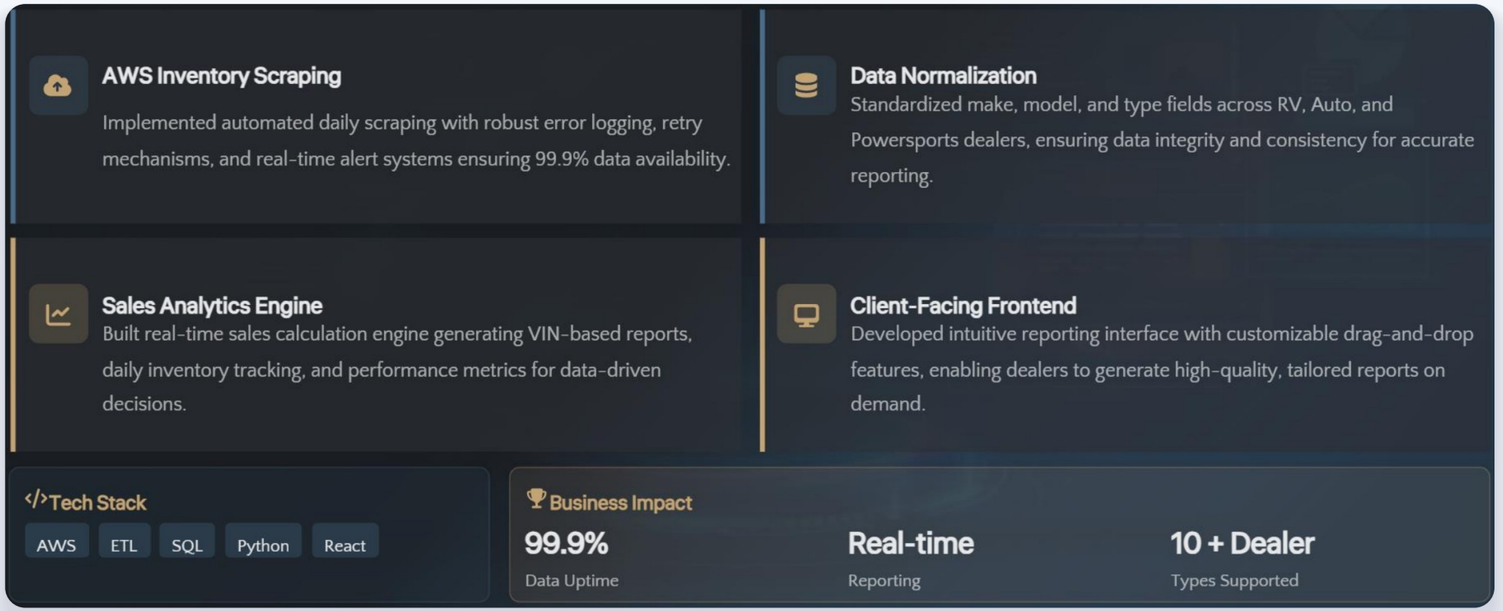

BrandMirchi

Automotive data pipeline & reporting system

An integrated data pipeline for US automotive dealers (RV, Auto, Powersports) delivering automated inventory scraping, data normalisation and dynamic reporting.

- 99.9% data availability with automated daily scraping
- Standardised make, model and type across dealers
- Real-time VIN-based sales analytics
- Drag-and-drop custom report builder

AWS ETL SQL Python React

AI · INTELLIGENCE

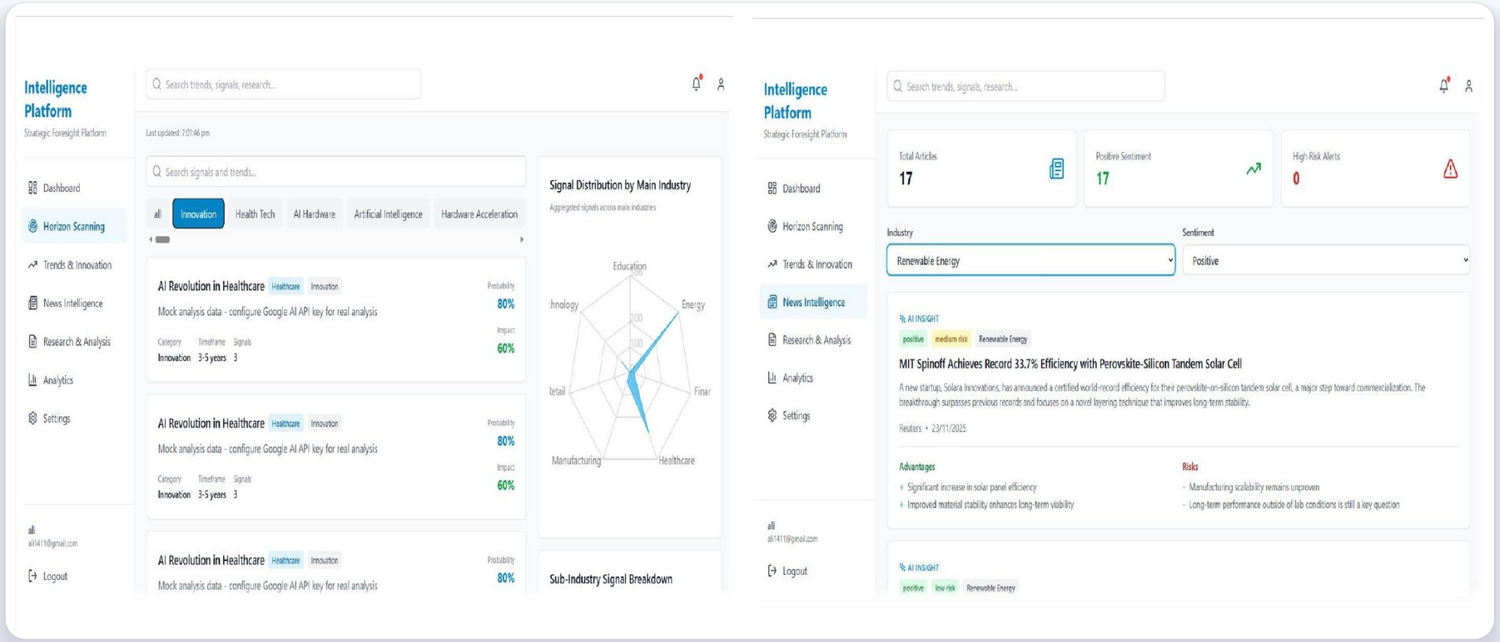

STRATEGIC FORESIGHT

Future Index

AI-powered horizon scanning platform

Helps organisations spot emerging trends early by scanning signals, news and research across industries — and turning them into AI-generated insights.

- Horizon scanning with probability & impact scores
- AI news intelligence with sentiment and risk
- Signal distribution across industries
- Advantages vs. risks summary for every insight

Generative AI | Analytics | SaaS

PLATFORM · SPORTS

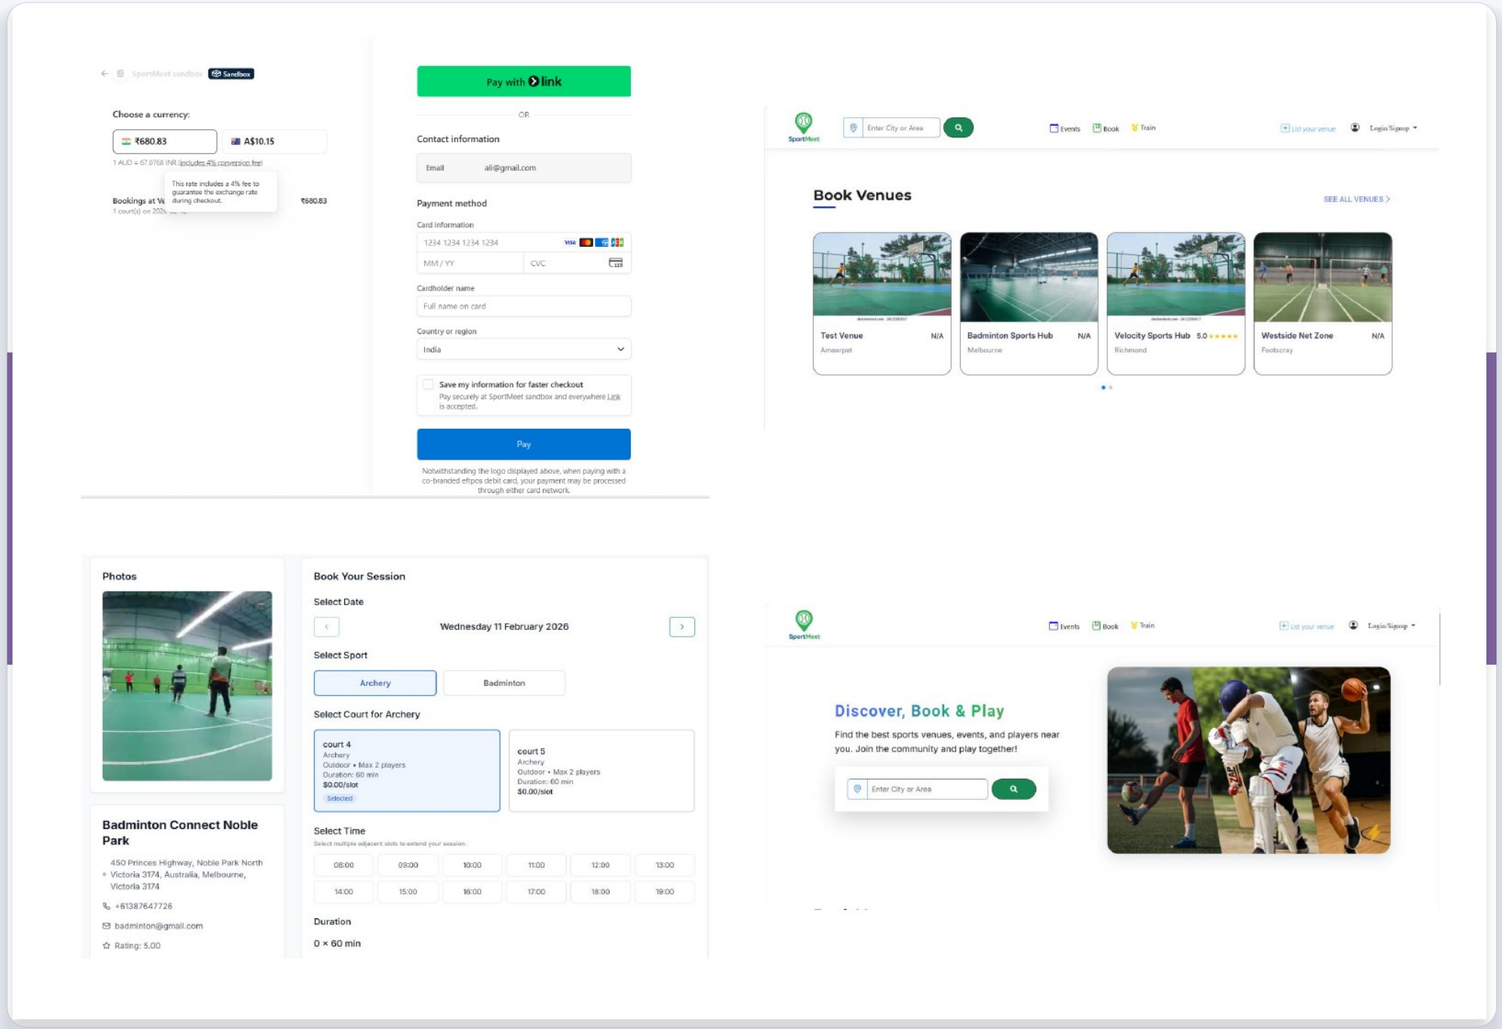

SPORTS & COMMUNITY

Sportsmeet

Discover, book & play

A sports platform to find venues, events and players nearby — and book courts in a few taps.

- Venue discovery by city or area
- Sport, court and time-slot booking
- Secure online payments with multi-currency checkout
- Events and player community

Web App | Payments | Booking Engine

MARKETPLACE · AUSTRALIA

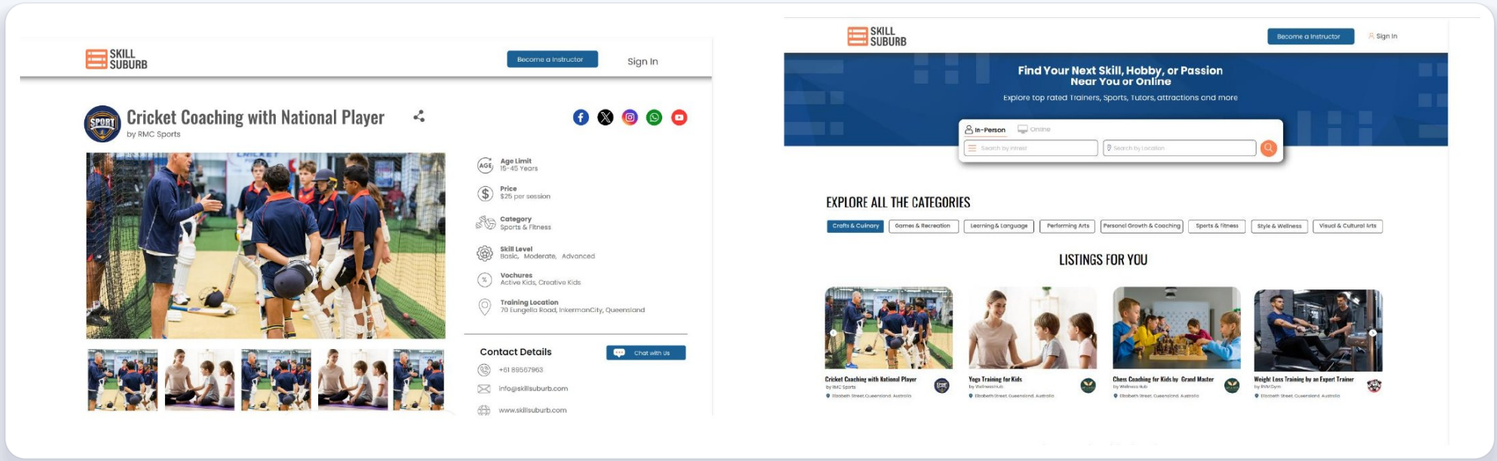

LEARNING & ACTIVITIES

Skill Suburb

Find your next skill, hobby or passion

A marketplace connecting learners with trainers, coaches and tutors — in person or online.

- Category browsing from sports to performing arts
- Rich listings: age, price, level and location
- Supports Active Kids & Creative Kids vouchers
- Instructor onboarding and direct chat

Marketplace

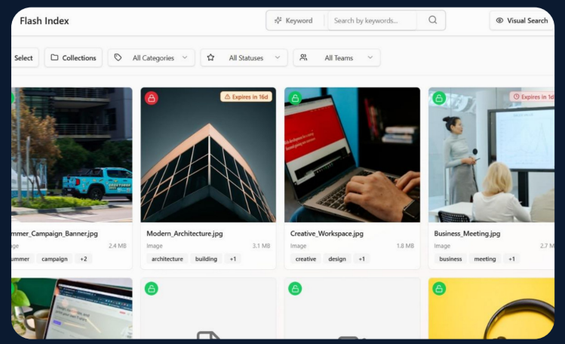

Web App

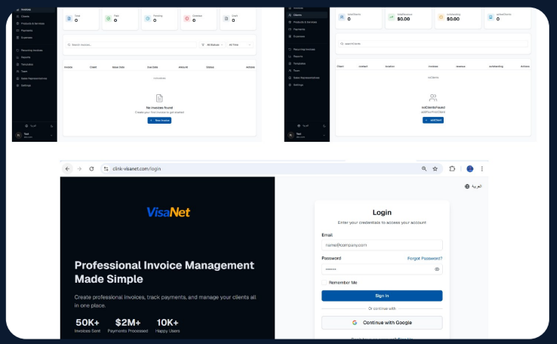

03

Ongoing AI Projects

Enterprise-grade platforms currently in development for clients in the Middle East and beyond.

IN PROGRESS · SAUDI ARABIA

DIGITAL SIGNAGE

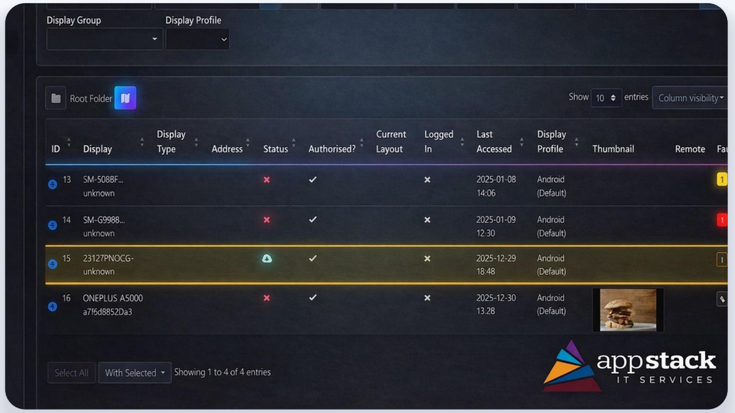

Digital Signage CMS

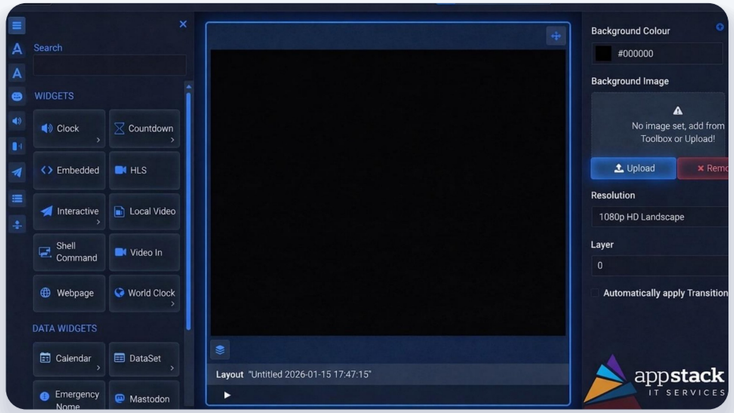

Manage every screen from one place

A content management platform for networks of digital screens across cities — monitor health, manage displays and design layouts centrally.

- Live online / offline screen monitoring
- Screen distribution by city and category
- Ad-spot utilisation tracking
- Drag-and-drop layout designer with widgets

CMS | IoT Displays | Analytics

IN PROGRESS

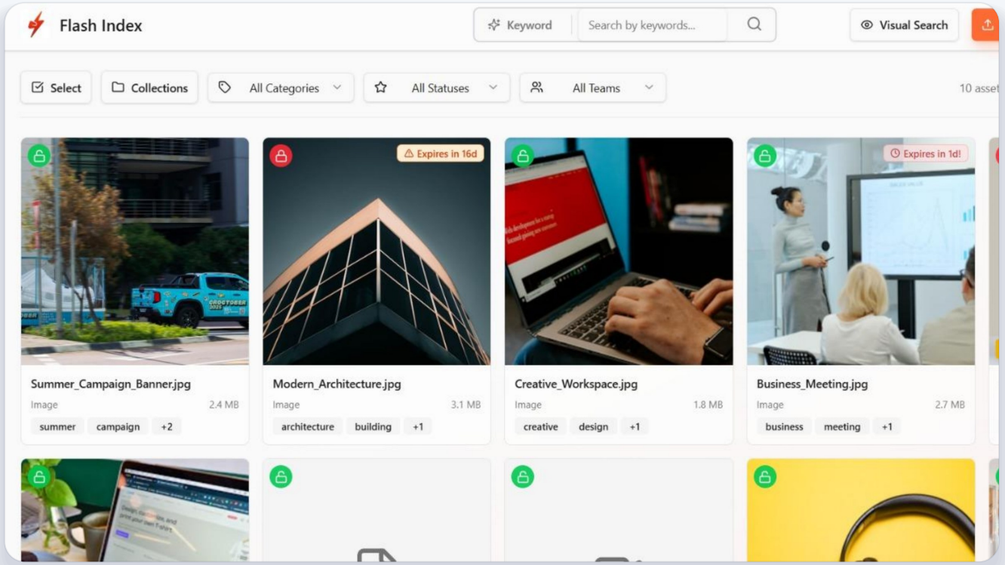

DIGITAL ASSET MANAGEMENT

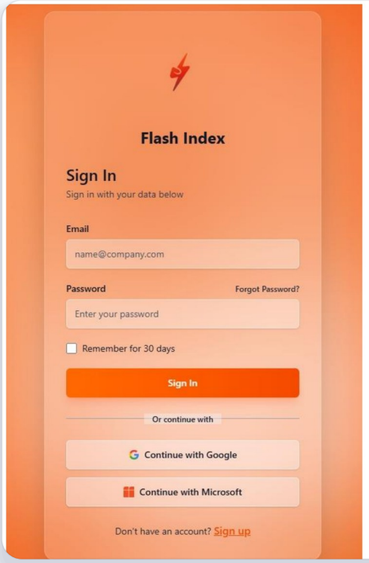

Flash Index

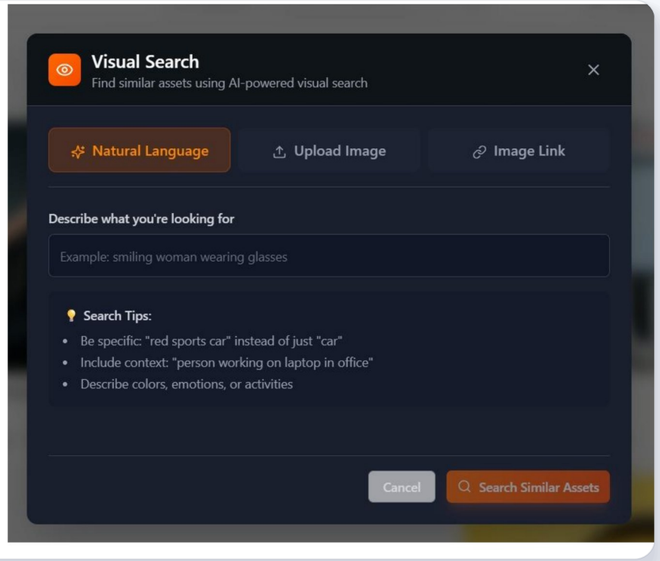

AI-powered digital asset management

A smart library for images and media that teams can search the way they think — by describing what they need.

- Visual search by natural language, image upload or link
- Collections, categories, statuses and teams
- Licence expiry alerts on assets
- Google & Microsoft sign-in

Vision AI | Semantic Search | SaaS

IN PROGRESS

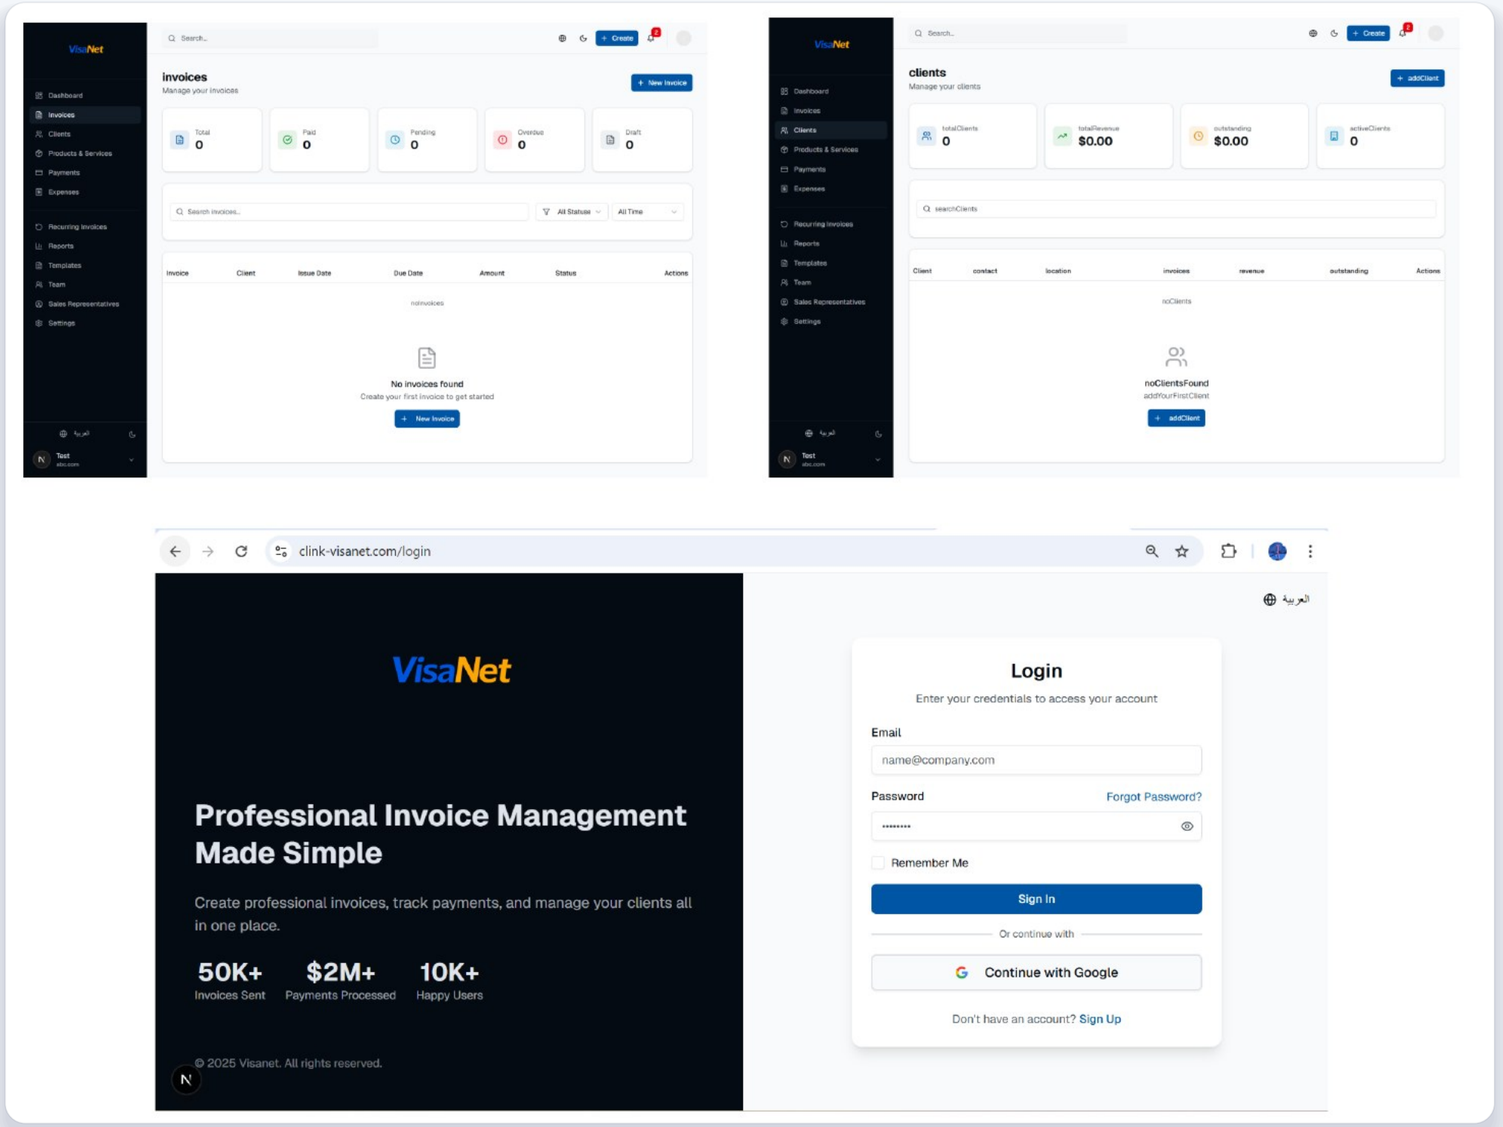

FINTECH SAAS

Invoicing SaaS

Professional invoice management made simple

A bilingual invoicing platform to create invoices, track payments and manage clients in one place.

- Invoices, recurring invoices and payments
- Clients, products & services, and expenses
- Reports, templates, team and sales reps
- English & Arabic interface

SaaS | Bilingual (EN / AR)

Let's build something intelligent together.
